

To Whom It May Concern:

I would like to highly recommend MARKA PAINTING for any job, whether it be residential or commercial.

As an interior designer with high expectations for every job I do, I do not use anyone other than Carlos of MARKA PAINTING. I have been using their services now for 9 years and have always been happy with the service, and end result.

The attention to detail is superb, but just as importantly, is the fact that they ensure they leave the job site cleaner than what they found it. The ease of working with Carlos makes every job effortless and knowing that the job will be done well without having to supervise it every step of the way is unique. Knowing you have someone with expectations as high as your own for the job and knowing you can leave things to Carlos is a quality any one in the industry appreciates and happily recommends professionally as well as to personal family and friends,

The expertise and advise that Carlos is capable of giving is unique. Whether it be assistance with choosing colours that will look fabulous and suit the job, to appropriate finishes such as gloss levels for different areas. This is an asset that is valuable and reassuring.
