

Attention: Carlos

Please feel free to use my comments to promote your business.

As you are aware, you were initially recommended to me by Mosman Building Services, and as a result I was happy to engage your services to complete the painting of my kitchen walls and a major wall in the lounge/dining room. As the apartment is in an old original home, approximately 80 years old, the kitchen walls were in an advance state of disrepair, and as such required the removal of old wallpaper, followed by a major rendering of most of the walls before they could be finally painted.

I am very pleased with the result, which is of the highest standard. I can also recommend you as one of the most reliable and cleanest worker, which was extremely pleasing to me. I will be calling on your services again in the near future.

Thanking you again for your great work.

Regards

Jan Murphy
